- **GPRS modem**

**Support:** [Modem AT Referenz](#)

The CTFPND-3 is a 7" Touchscreen PND on Windows CE 5.0 basis with integrated GPS receiver and GSM/GPRS modem. Therefore the CTFPND-3 is the perfect platform for your telematics application. The extra-high native resolution of 800x480 enables a perfect viewing quality.

The device is equipped with a FM transmitter and video input. Optionally this device can be equipped with an external TMC receiver.

**Note :** This PND is an offer primarily meant for business and project customers. End consumers should only consider purchasing this device when they have appropriate experience.
