- **Intel DN2800MT**

All Intel DN2800MT or Mitac PD10BI boards have a cutout slot for inserting 34mm Express Card.

Adapter board fastens into the mini-PCI-e standoffs by using magnetic screwdriver (included in the kit). Express Card adapter works with both USB and 1x PCI based 34mm Cards. No special drivers required, works with original ExpressCard manufacturer driver (Linux, Windows, etc).
