

14.95 EUR

incl. 19% VAT, plus shipping

This module allows you connect any Standard SATA device (eg. 2.5" HDD/SSD drive) to the m-SATA slot through a standard SATA cable. Transparent to the operating system and does not require any software drivers.

The adapter for example can be used with Intel NUC mainboards.

**Scope of supply:**

- mSATA to SATA adapter card
- 4x screws
