CTFPND-1 V4 with wireless camera receiver and TMC receiver

2.4GHZ wireless rear view and reversing camera system (max. distance 5-10m). The mini camera transmits a live image to the viewing monitor, normally located on your dashboard (eg. CTFPND-1 V4/V5). License plate car rear view camera, 120 degree wide angle with wide picture. Low illumination, 3 meter IR range. Waterproof level: IP65. Great for CARS, VANS, RACE TRUCKS, LORRIES, HORSE BOXES, TRAILERS, etc...

CTFPND-1 V4/V5 switches automatically to the camera picture as soon as the camera is powered on.

CTFPND-1 V5: Proper connection while using together with TMC receiver: Power adapter -> camera receiver -> TMC-receiver -> PND.

Video system

PAL/NTSC

Pixel

PAL 628x586

NTSC 510x496

CMOS

1/3" OmmVision CMOS

Minimum Illumination

3.0 Lux (F 1.2)

Scanning Frequency (H)	15.625KHz(PAL), NTSC:15.734KHz(NTSC)
Scanning Frequency (V)	50Hz(PAL), 60Hz(NTSC)
Power	DC 12V
Receiving Sensitivity	< -8.5dBm
Video Output	1 Vp-p 75, $S/N > 38$ dB
Receiver	
Power	5V DC (via USB)
Modulation Mode	FM
Transmission Frequency	ISM 2400~2483Mhz
Connectors	2x Mini-USB (for 5V power), 2.5mm jack (for video)
Sender	
Power	12V DC
Modulation Mode	FM
Transmission Frequency	ISM 2400~2483Mhz
Connectors	12V (for connecting to vehicle rear light), GND
Scope of supply	- NOTE : The 7" PND device (CTFPND-1 V4) visible on the product photo is not included in scope of supply. - Camera (width : 25cm) - Sender unit - receiver unit
