Successor model of UJ-875A

Panasonic PAN-UJ-8C5 is a Slim DVD Super Multi Burner for secure storage of computer data, authoring and backup of DVD movies, audio/music, photos and large digital files.

Use this Slim DVD drive on laptops and notebooks to read and write standard DVD-RAM DVD-R, DVD+R and CD media, including double layer DVD discs.

UJ-8C5 DVD drive uses Slimline SATA, the connection type for the latest generation of optical media drives. Slimline SATA is the data connection standard for 12.7mm optical drives in new generation notebooks such as Macbook and Windows laptops.

Features:

- Slimline SATA: drive utilizes the new, faster slimline SATA data connection.
- Slot Load: featuring button and software eject mechanism.
- DVD Burner: read and write most standard CD and DVD media, including bare DVD-RAM discs.
- Internal DVD Super Multi Burner reads and writes DVD and CD discs
- Fast Slimline SATA connection for new generation of DVD optical disc drives
- Writes to bare 4.7GB and 9.4GB DVD-RAM discs.
- Features Panasonic Slim 12.7mm DVD writer technology
