With the new Open-Frame TFT display-series from CarTFT you get back control : The ruggedized metal frame enables you a stable installation. The single modules (Mainboard, Touchscreen controller, Power inverter and button-frame) can be screwed off from the rear side and being positionated elsewhere. This way you can install the connector cables more easier and the display thickness shrinks also.

Note : This Open-Frame TFT display is an offer primarily meant for business and project customers. End consumers should only handle with unprotected electronic parts with appropriate experience.

Possible additional options (starting from a MOQ of 20 units):

- Speakers
- Auto-Dimmer
- Different cable lengths
- Other display models/sizes
- Touchscreen RS232 instead of USB

- Other connector types
