CARTFT.COM

With this Car2VIDEO adapter you can connect the MMI 7" TFT display of an Audi A6/A8/Q7/A4 with external video sources.

You can use up to 2 video sources (PAL/NTSC) with the adapter (eg. DVD, TV, Playstation) One video port can turn on automatically when rear gear is inserted (=rear camera input)

Easy installation (Plug & Play) :

De-assemble the glove. Remove the LVDS connector from the display box and connect the Car2VIDEO between. Also connect the Car2VIDEO adapter to power.

The Video-sources can be chosen with the included remote control unit and on the Audi system.

Notes :

- You do not need an Audi TV Tuner.
- You do not need an Audi navigation system (you only need the MMI display)
